

The health and safety of our customers, employees and work environment is our number one priority. We have increased the cleaning and disinfecting of surfaces in our showroom, have followed the CDC guidelines, and will continue to do so in order to “flatten the curve” and do our part to ensure safety and health.

We encourage our clients to contact us at any time in regards to their flooring needs. We will be here for you and help out in any way possible.

We have also made some changes to our hours of operation.

Effective April 2020 our hours are as follows:

Monday -Saturday: 11am-4pm

Sunday: Closed

However, if you need assistance outside these hours, please contact us ahead of time, and we will coordinate accordingly
